### COMPANY INFO:

FedEx Supply Chain connects people to possibilities and opportunities through our portfolio of customer-valued supply chain solutions. We're a leader in non-asset-biased transportation, warehousing and distribution, and value-added services. In addition, we offer innovative e-commerce and reverse logistics solutions to expand markets and extend product life.

### OUR FOCUS IS WHAT DIFFERENTIATES US IN THE MARKET.

**Technology:** To accurately optimize inventory and increase warehouse efficiency, FedEx Supply Chain implements warehouse management systems (WMS) and leverages warehouse automation for greater efficiencies and to solve unique business problems.

**Process innovation:** We tailor solutions to product type and end customers. Our history of developing new concepts, technologies, and implementing continuous improvement on every floor in every warehouse, means more value for our customers. Flexible, scalable solutions manage inventory across multiple channels with flexibility to meet peak, cater to customer expectations and control costs.

**Transportation:** We're dedicated to a non-asset-biased approach to providing the transportation solution that is most suitable to the customer's business model. Along with access to FedEx transportation services, we offer relationships with over 10,000 vetted carriers to provide the best solution for routing and transportation mode selection.

**Omni-channel:** Drives new business while making supply chains more complex. Our decades of experience with retail distribution and returns processing makes us most suited for providing fast direct-to-consumer and direct-to-store fulfillment and flexibility to return products anywhere. From large dedicated fulfillment centers for leading internet retailers to a network of multi-client e-commerce distribution centers, we provide every customer an opportunity to compete and thrive.
